THE HAMPSHIRE CO.

Hampshire Cabinetry

Stonebridge by Hampshire

Lifetime Limited Warranty

The Hampshire Co. warrants its products to be free from defects in materials and workmanship for as long as the original customer owns the products. This warranty is effective under normal home use and service, and does not apply to the natural aging or mellowing of wood and wood finishes, nor to normal wear and tear. It does not cover the removal or reinstallation of said product. Repair or replacement of defective items(s) is at the discretion of The Hampshire Co. This limited warranty does not cover defects caused by improper storage, installation, misuse, or neglect. Replacement of drawer slides, hinges, and/or hardware items are subject to the availability from our suppliers.

No warranty on unfinished cabinetry.

The Hampshire Co.'s limited lifetime warranty applies to the original consumer purchaser and at the original site of installation only. The Hampshire Co. reserves the right to approve field repair or returning the item(s) to the plant for correction. This warranty is expressly in lieu of all warranties of merchantability and fitness. No person, firm, or corporation is authorized to assume for us any other liability in connection with the sale of these goods.

About Our Catalog

We strive to keep up with customer interest, and new innovations in cabinetry. It is important to note that this catalog is considered a living document which is continually being updated. Please check for updates regularly at:

http://www.HampshireCabinetry.com/catalogs

Company Policy

The Hampshire Co. will not be responsible for newly manufactured products to match the color of existing products.

The Hampshire Co. reserves the right to change the design, construction, or the materials listed in the specifications without notification.

Minimum billing charge per order - $25.00 Net.

Changes and Cancellations

All orders that need to be changed due to dealer error are subject to a $50.00 reprocessing charge.
Cutout information for oven cabinets, microwave cabinets, refrigerator cabinets, etc. not furnished with the original order may be subject to a $50.00 reprocessing charge if the original order has already been processed.

Decorator panels for refrigerators, dishwashers, compactors, etc. will be deleted from the order if all necessary information is not furnished.

Orders may not be changed or canceled once they are in production, so please verify the status of the order before changing.

Cabinetry Care and Cleaning Suggestions

Remove dust

Dust Buildup from small airborne particles may scratch or dull the surface if not removed correctly. Simply wipe the surface with a cloth dampened with a cleaning polish or mild detergent.

Clean

Fingerprints, cooking fumes, smoking residue, etc., accumulate on any finished surface. None of these contaminants will harm our finish, but they should be periodically removed to restore the finish to its original luster. Just wipe the surface with a cloth dampened with a non-wax containing polish or a mild detergent solution. Avoid the use of ammonia-based products or silicone oil, as they may cause damage if used over a long period of time.

Additional Notes

Our products are natural wood, and moisture exposure should be minimized. Water spills should be promptly dried with a soft cloth. Do not allow wet clothes, sponges, or scrubbers to rest against the surface of our products.

Trouble Shooting

Cabinets need to be inspected prior to installation. The Hampshire Co. **will not cover any expense in the removal or reinstallation of defective products.**

The Hampshire Co. reserves the right to repair or replace a defective item (due to manufacturing). The Hampshire Co. may request that the defective item be returned to the factory before rendering a decision. If, after a field representative inspects a defective item, it is in our mutual best interest to field repair that item, authorization must come from the factory.

All defective items will be replaced on a “rush” basis. They will be invoiced to the dealer and credit issued when the defective item is returned and our inspection verifies the defect.

Remember, slight variation in color and grain between component parts and doors may appear. This is not a defect and is considered acceptable in the cabinet industry.

Warped Doors

In new construction applications, experience dictates that some cabinet doors may warp after installation. Because of the humidity found in homes, it is recommended that an entire heating cycle be completed before replacing doors. Also, be certain that the door is actually warped rather than the cabinet being racked.
The Hampshire Co. will replace at no charge those doors which have warped 1/4” or more.
The amount of warp can be determined by placing the door on a true, flat surface.
Single panel doors over 23 13/16” wide and/or 47” high are not guaranteed against warpage.
The Hampshire Co. specifically does not guarantee against changes or defects in material caused by climate, change of moisture content, temperature and other occurrences beyond its control after the product leaves the plant.
Our guarantee does not include removal, shipment, or reinstallation of doors.

Procedure for Replacement of Warped Doors

Write an order for the doors using a Hampshire Co. order form. Include a copy of the original Hampshire Co. invoice. Indicate on order form why doors are being replaced.
Ship the doors, and the order form with the copy of the original invoice to The Hampshire Co.
The Hampshire Co. will not be responsible for doors returned without proper identification.

Inset & Beaded Inset Doors

Inset door styling has close tolerances, therefore it is necessary to take extreme care to make sure the cabinets are installed square, plumb, and level. Failure to do so can result in doors that rub the frame when opened or closed.
Since wood expands and contracts, seasonal changes in the temperature can cause doors and drawers to bind or stick. The Hampshire Co. recommends that cabinets be stored and installed in a climate controlled environment at all times.

Delivery and Shipping

Once cabinets have been released into production it is the responsibility of the dealer to accept delivery upon completion. All orders will be tailgate delivery and delivered to your place of business unless previous arrangements have been made for jobsite delivery.

Jobsite Deliveries

It is imperative to supply The Hampshire Co. with complete information on all jobsite delivery orders. We require the following information:

- Customer name
- Customer address (please be specific)
- City, State, Zip Code
- Dealer telephone number with salesperson's name
- Furnish accurate directions and a map

It is the responsibility of the dealer to provide a jobsite accessibility check.

- Check overhead clearances of all bridge accesses.
- Check restrictions and the weight limits of all access bridges and/or roads.
- Properly determine the feasibility of making a jobsite delivery.
- Provide sufficient assistance on the jobsite to help unload.

Minimum Delivery Charge

A minimum delivery charge will be applied to any order delivered by Hampshire Co. Charge will vary based on location. Contact factory for pricing.

Parcel Service Package Delivery

All parcel service orders are subject to the Parcel Service charge plus packaging and handling. Packaging and handling costs vary based on packaging needed and time involved preparing to be shipped. Please contact factory for pricing. Paint, stain, etc. cannot be shipped by parcel service and can only be shipped on a Hampshire truck or by pick up. Please plan accordingly.
It is important to note that packages over 93" now have a surcharge imposed by both UPS and FedEx. Due to packaging, sizes, we recommend whenever possible to order moulding and other materials cut to 90" where feasible. If you require moulding or other materials measuring over 90", the cost will exceed $100.

Dealer Starter Packages

Basic

- 6 sample frame or fronts-dealer's choice
- Set of sample blocks-including glazed & distressed (see pages 8-9)
