Door Overlays

Many door styles in our Stonebridge line are standard in certain overlays, but can be upgraded to other otherlays for an additional cost. These upgrades are noted in the description of the door style.

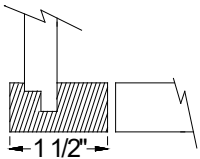

1/2" Overlay

The Hampshire Co. uses a fully adjustable concealed hinge on 1/2" overlay. This hinge allows the door to open to 110 degrees.

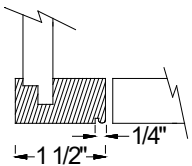

1 1/4" Overlay

The Hampshire Co. uses a fully adjustable concealed hinge on 1 1/4" overlay. This hinge allows the door to open 110 degrees.

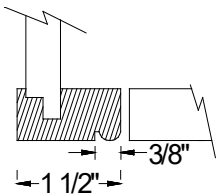

Inset

As the name implies, the door and drawer are set into the cabinet openings. The frame of the door is flush with the face of the cabinet. Facing rails are 1 1/2" wide. The Hampshire Co. uses adjustable butt hinges or fully adjustable concealed hinges on this style.

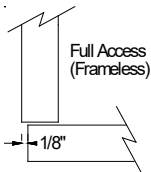

1/4" Beaded Inset

Same specifications as Inset except the facing rails contain a 1/4" wide bead detail. Face frame stiles and rails remain 1 1/2" wide including this bead.

3/8" Beaded Inset

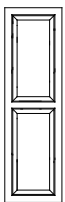

Same specifications as Inset except the facing rails contain a 3/8" wide bead detail. Face frame stiles and rails remain 1 1/2" wide including this bead.

Frameless

Frameless, or Full Access, is cabinetry without a face frame. The cabinet sides and tops and bottoms are 3/4" thick, using wood dowels and glue to join the parts together. 1/8" reveal, all edges.
